

# Handmade Books

One of my aims in these workshops is to show you how to make a variety of book structures using simple tools and materials. All basic materials are included and I will have a selection of tools for people to borrow, and also some to buy if you think you would like to continue making books after the workshops.

## **It would be helpful if you can bring the following**

Pencil,

Ruler

Scissors (for paper)

Apron/old clothes (or be careful with your glue!)

## **You may also bring these if you have them**

Bone folder

Thin awl (like a very thin screwdriver with a sharp point for making holes in paper)

Strong decorative threads

Decorative papers for covers

Buttons or beads for closures

Any materials, such as prints, photographs, decorative papers, that you would like advice on incorporating into book form either at the workshop or in future.

I will be providing a basic stock of paper, card, decorative cover papers, glues, scrap paper, needles and thread.
